Model SL16

Legacy Series Flow Through Humidifier (GFI #5000)

Breathe Healthier

Control Indoor Humidity.

Installing a GeneralAire® Whole House Humidifier can reduce allergy and asthma symptoms, minimize risk of infection, protect valuables (such as furniture, woodwork and musical instruments) and save you money.

How the SL16 Works:
Your furnace sends warm air through a water-soaked Vapor Pad® inside your humidifier, where it absorbs additional moisture. Newly-moistened air is then distributed throughout your home to provide healthier air for you and your family.

Details inside or go to: www.generalfilters.com/modelSl16

Install a humidifier in your home to:

Protect your family’s health:
Low humidity is where viruses can thrive, causing your throat and nasal passages to dry. This leads to nose bleeds, increased risk of infection, colds, flu and other respiratory ailments. Dry air can trigger asthma and allergy symptoms. Air that’s too dry causes dry/itchy/cracked skin.

Protect your valuables:
Dry air in your home can cause expensive artwork, wood flooring, cabinets, furniture and musical instruments to crack. Dry air increases annoying static shocks that can damage electronics.

Save money:
Since dry air can cause woodwork to crack, resulting gaps in windows & doors let cold outside air in. In addition, dry air feels colder. Take the chill out with an SL16. Turn your thermostat down and save money.

Why Whole-House Humidification Vs Portable Room Units?

See the top reasons below why a whole-house humidifier is a better option for your home than a portable room unit:

<table>
<thead>
<tr>
<th></th>
<th>GeneralAire® Model SL16 Whole House Humidifier</th>
<th>Portable Humidifier Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>Controls humidity in every room of your house</td>
<td>Yes. You will benefit from proper humidification throughout your home.</td>
<td>No. You’ll need to purchase a unit for every room in your house.</td>
</tr>
<tr>
<td>Quiet Operation</td>
<td>GeneralAire® Model SL16 Whole House Humidifier</td>
<td>No. Portable units are noisy and take up space in your rooms.</td>
</tr>
<tr>
<td>Minimal Maintenance</td>
<td>GeneralAire® Model SL16 Whole House Humidifier</td>
<td>No. You’ll need to constantly be re-filling and cleaning water pans.</td>
</tr>
</tbody>
</table>

Selecting a Humidifier

There are several considerations when selecting a humidifier for your home:

1. Size of your home
2. Number of HVAC systems in your home
3. Type of humidification preferred
4. Maintenance requirements
5. Age of your home
6. Your climate
7. Cost to operate
8. Home project status

We recommend speaking with a licensed contractor for assistance with your humidifier selection and installation. Use our “Find a Contractor” tool on www.generalfilters.com for a list of contractors in your area.

Ideal Humidity Levels

Research has shown that 40% to 60% relative humidity provides a comfortable environment for your woodwork, your furniture, your plants, your pets and especially you and your family.

How Much Humidity Do I Need?

Calculate the Total Cubic Feet of Home

Total Home Square Footage X Average Ceiling Height (Include the basement)

Calculate the Load (lbs/hr)

Total Cubic Feet X Desired Condition Factor (Table Below) X 1.05 For Each Fireplace

Calculate Gallons Per Day (GPD)

Gallons Per Day = Load (lbs/hr) X 2.88

Desired Condition Factor Table

Model SL16  Legacy Series Flow Through Humidifier  
(GFI #5000)

Cover Tab  
(Found on Both Sides at Top)  
- Slightly lift bottom of tabs up / out from unit to “swing” cover open and down for easy maintenance of unit.

Cover  
- Made with DuraPlast®, an ultra-violet stable automotive-grade plastic for long-lasting durability.  
- Cover remains attached at bottom for easy open / close.  
- Cover can be easily opened in small / tight spaces.  
- No tools are required to open cover.  
- User-friendly annual Vapor Pad® replacement and maintenance!

Solenoid Valve Assembly  

Water Intake Valve  
- Brings water into unit and to the distributor trough.

Distribution Trough  
(Inside)  
- Features the patented KineticFlo water distribution system.  
- Ensures every square inch of the Vapor Pad® is covered for consistent evaporation throughout.

Bypass Duct  
- Mount to left or right.

Left Bypass Cover  

Water Drain Tube  
- For automatic draining of water from unit.

Wall Mount Housing  
- Allows installation in duct or on wall.

Easy-to-Use Dial  
Simply turn the dial to the desired humidity level for your comfort.

Contemporary Design

Maintenance  
Maintenance of your new GeneralAire® SL16 Legacy Flow Through Humidifier is minimal. To ensure peak performance and reliable operation, simply change your Vapor Pad® once per year and clean mineral deposits from the water pan. A solution of 1/2 vinegar and 1/2 water is suggested. Go to www.generalfilters.com / support center / video library to watch a video demonstrating how to perform maintenance on your SL16.

New!  
MHX3C Manual Humidistat  
Included with your Model SL16

<td>2800 Sq. Ft.</td>
</tr>
</tbody>
</table>

- Test results are from cold water application
- GPD shown is at 120° Plenum Temperature
- Performance assumes 8 hour average furnace run time in 24-hour period.

### Inside the Box:

- The SL16 Humidifier
- Warranty Card
- Installation Manual
- Vapor Pad®
- MHX3C Manual Control Wall Mount Humidistat Included
- Parts Kit
- Drain Hose
- Transformer
- Solenoid Valve
